

NASA's Return to the Moon

Let's Kick Up Some Moon Dust

On **October 9, 2009**, NASA will be Kicking Up Some Moon Dust when LCROSS impacts the Moon.

NASA's **Lunar CRater Observation and Sensing Satellite (LCROSS)** will impact a permanently shadowed crater at the Moon's south pole in search of water ice, an important resource for sustainable exploration.

Watch NASA's live TV coverage of the LCROSS Impact at <http://www.nasa.gov/ntv> to watch this exciting event.

To find out when to watch the impact from your time zone, please visit <http://www.nasa.gov/lcross>.

Come with us! Let's Kick Up Some Moon Dust!
